DIVINE SOLUTION FOR CLEANLINESS
Installation of Lord Krishna Idol
at IT Park, Hubballi

An Innovative Initiative by Security Team

Supported by

Vijay Dev Sir & Mahantesh Bannimarad Sir

- THE CHALLENGE - Aniyamitha Anachara
- THE CHALLENGE: Unhygienic Practices at IT Park Premises

Points:

- People littering garbage everywhere Gutkha,
- Paan chewing and spitting on walls,
- corridors & lobby Open urination in isolated areas Created unhygienic environment & bad image

- FAILED ATTEMPTS TO CONTROL
- PREVIOUS EFFORTS - ALL CONVENTIONAL METHODS FAILED

Points:

- Pasted "No Spitting" Notice Boards at spitting zones People tore the notice boards, Applied Lime (Sunna) on spitted walls Cleaned repeatedly.
- but people continued spitting Impossible to control.

- **THE DIVINE IDEA**
- INNOVATIVE IDEA: Divine Presence to Maintain Cleanliness
- **Points:**
- Thought: If God Murthy is present, people will have Bhaya-Bhakti Due to devotion.
- They will stop spitting & littering Idea discussed with respected Manager Shri Vijay Dev Sir.
- Sir appreciated and gave permission immediately.

- **WHY LORD KRISHNA?**
- Perfect for Open Garden Concept

Points:

- If we install any God, daily Pooja is mandatory Our intention is Open Garden Concept with Clean & Hygienic purpose Lord Krishna symbolizes Love, Peace & Cleanliness Hence decided to install Krishna Vigraha
- **SUPPORT & CONTRIBUTION FOR NOBLE CAUSE**
- Manager Sir guided to contact Training Centre Head Shri Mahantesh Bannimarad. He happily agreed to contribute money for Krishna Murthy Our staff visited shop, selected beautiful Krishna Idol Brought with devotion - Example of Teamwork

FINAL RESULT - BEFORE vs AFTER
TRANSFORMATION COMPLETE: 100% SUCCESS

POINTS:

BEFORE: Gutkha stains, Garbage, Bad smell

AFTER: No spitting, Clean & Divine, People show respect, Positive environment.

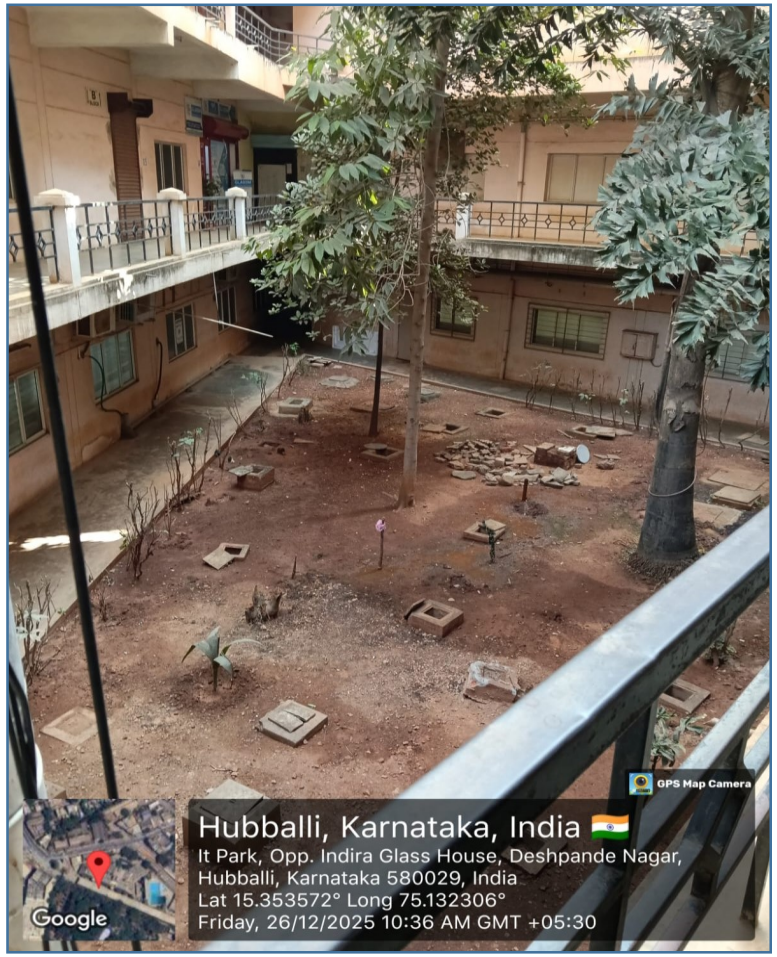

RESULT: Divine Fear Worked Where Notices Failed.

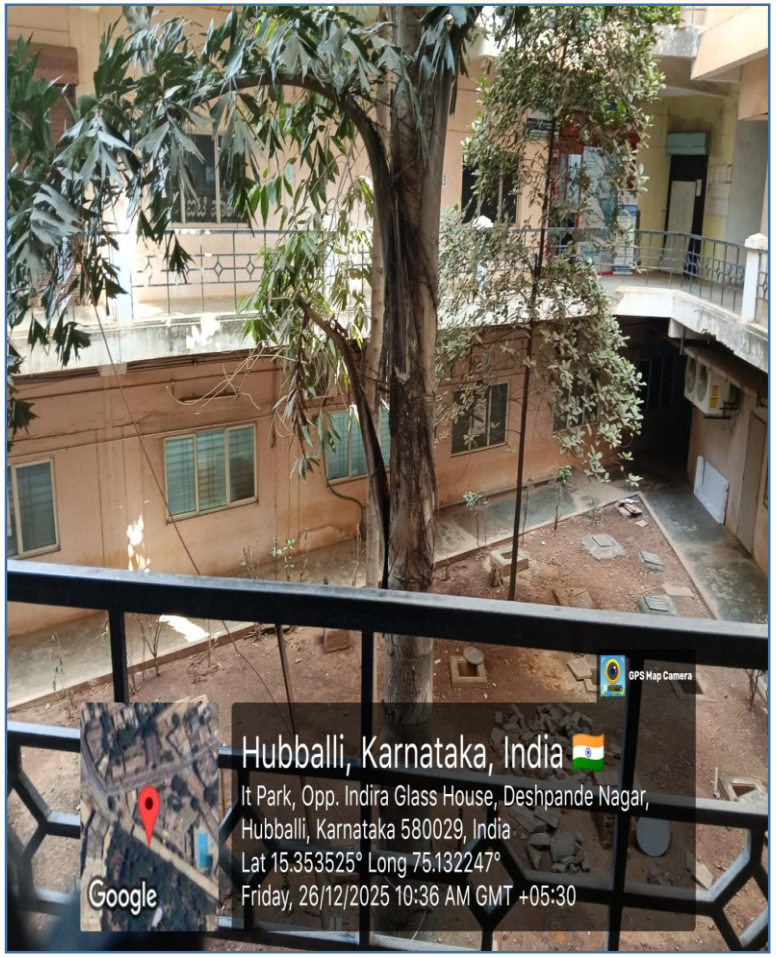

Blessings from Management, Contribution from Training Centre, Created with Devotion by Security Team

JAI SHRI KRISHNA

INITIAL STAGE: Condition of the Area Before Development of Shri Krishna Garden

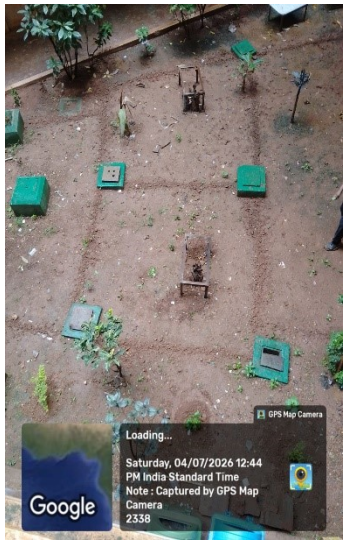

BEFORE - THE UNUTILIZED & UNCLEAN SPACE

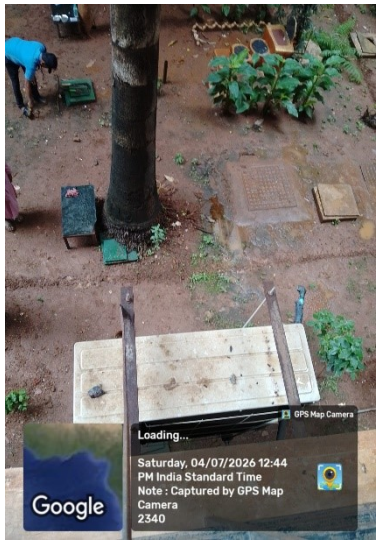

- This open area inside IT Park Hubballi was completely unused and filled with waste & dust.
- The place was unclean, unhygienic and was being misused for spitting and littering.
- Our Security Team identified this neglected area and decided to transform it.
- Initiative taken to clean the area and develop it into a Divine Shri Krishna Garden with plantation and seating.

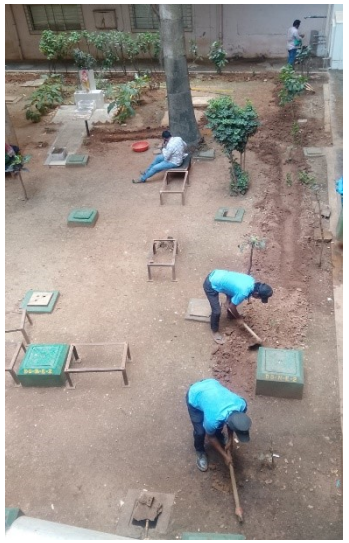

GREEN INITIATIVE: Security Guards Developing Shri Krishna Garden with Own Hands

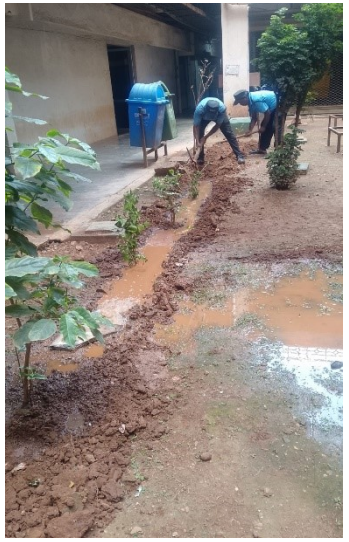

PLANTATION DRIVE BY SECURITY TEAM

- After cleaning the unused area, our Security Team started developing the Shri Krishna Garden.

- Security guards themselves digging pits, planting saplings with devotion and dedication.

- More than 50+ plants planted around Shri Krishna Sannidhana to create a green & divine environment.

- Varieties Planted: Banana Trees, Flowering Plants, Show Plants & Ornamental Plants for beautification and greenery.

- This is not just duty, but Seva - Transforming a waste land into a beautiful green & divine garden with own hands.

INSTALLATION CEREMONY AT IT PARK HUBBALLI

Idol installed with devotion at IT Park Pratishthapane

done by Manager Vijay Dev Sir & Training Centre Head Mahantesh Bannimarad Sir

BEAUTIFICATION WORK AT SHRI KRISHNA SANNIDHANA BY SECURITY STAFF

TILE & FOOTPATH WORK

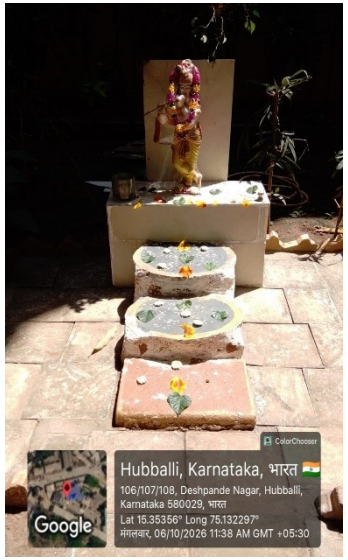

DIVINE IMPACT - A MEDITATION ZONE CREATED

- At the newly established Shri Krishna Sannidhana, an IT Park visitor came and sat in deep meditation.
- He was in complete peace and sat continuously for 1 hour in that divine atmosphere.
- The place which was once an unhygienic spitting zone is now transformed into a Peaceful Meditation Corner.
- This proves that - Where there is Divinity, there is Cleanliness and Peace. Where Notices Failed, Divinity Succeeded.

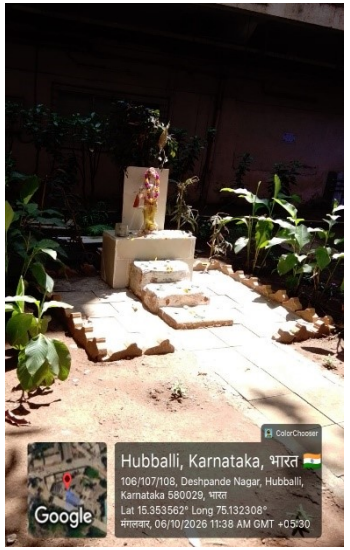

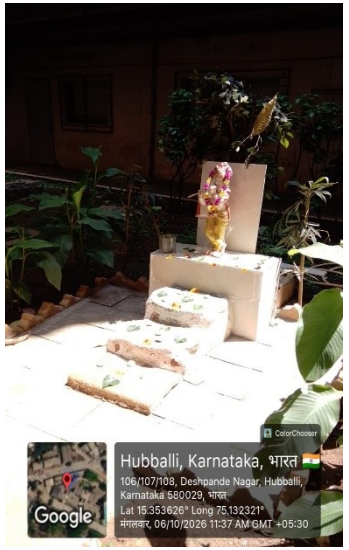

Area cleaned and decorated - Became Divine

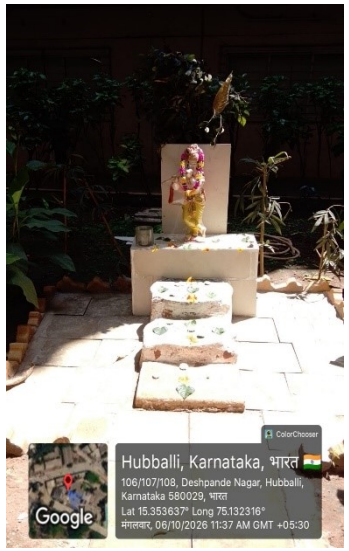

SPACE UTILIZATION SUCCESS: Before Tile Work vs After Complete Development

BEFORE TILE WORK (Without Krishna):

- Ground was muddy, uneven and not suitable for sitting.
- No tiles, no seating arrangement, completely unutilized space.

AFTER ALL WORK (People Resting):

- After plantation, cleaning and tile development, area became clean & beautiful.
- Now IT Park staff and visitors are coming, sitting peacefully and taking rest .

FINAL OUTCOME: From Spitting Zone to Peaceful Meditation Zone - 100% Controlled

OUTCOME: DIVINE TRANSFORMATION SUCCESSFUL

- **Earlier uncontrollable spitting, littering & unhygienic practices are now 100% under control.**
- **The place where people used to spit Gutkha & Paan has now become a Divine and Peaceful Corner.**
- **Now people come there, sit peacefully and do meditation (Dhyana) with calm mind.**
- **Visitors and staff sit near Lord Krishna, feel positivity and inner peace.**
- **A Spitting Zone has been transformed into a Meditation Zone - A True Success of Bhaya-Bhakti Concept.**

FINAL OUTCOME: An Unused Muddy Area is Now a Clean, Green and Useful Public Relaxation Zone - Maintained by Security Team.

Eco-Spiritual Initiative - Tulasi Plantation & Protection- Nurturing Nature in the Divine Premises of Lord Krishna

Holy Tulasi sapling planted near Shri Krishna Temple and protected with wire fencing to ensure proper growth and sanctity of the temple premises. An initiative by Security Staff towards Green & Divine Environment.

NEXT INITIATIVE: SHRI KRISHNA SANNIDHANA MANTAPA - Effort by Security Team

FUTURE PLAN - MANTAPA CONSTRUCTION WITH WASTE RESOURCES

Initiative by Security Team:

• Security guards are now putting effort to build a small Mantapa (Roof/Shelter) over Shri Krishna Sannidhana.

Use of Waste Resources - Zero Cost Concept:

• No new purchase - Using unused / waste resources already available in IT Park.
• Small iron pieces, waste iron rods and scrap materials are collected and kept ready.
• Collected waste materials will be re-used to fabricate the Mantapa structure.

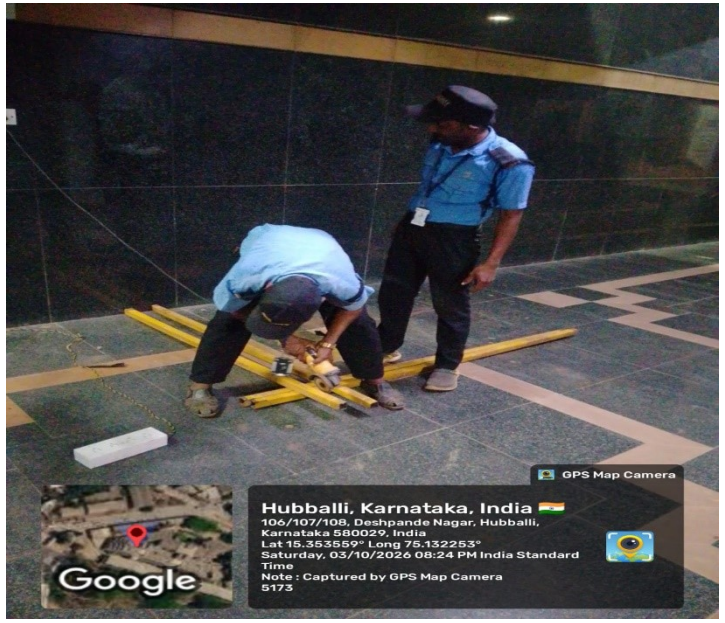

Purpose:

• To protect Shri Krishna Idol from direct sunlight & rain.
• To give a complete divine and temple-like look to the Sannidhana.
• To show that waste can be converted into useful divine structure.

Status:

Material Collection Done - Work in Progress.

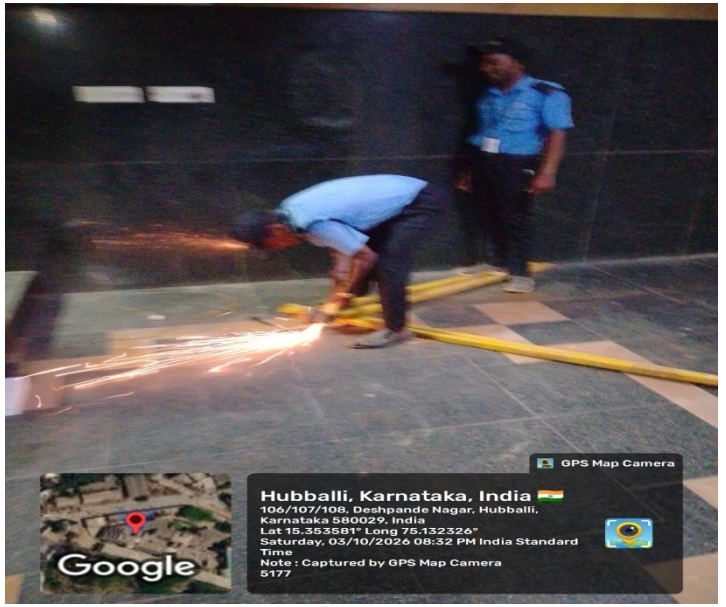

Photo: Waste iron pieces collected and kept at site - Proof of initiative.

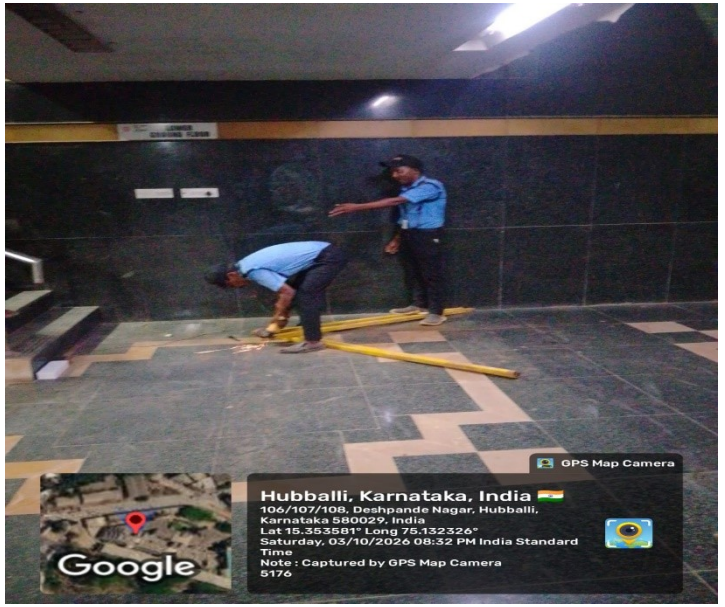

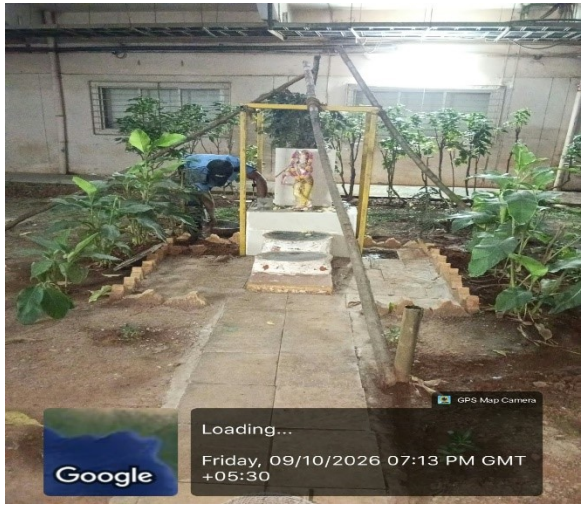

CONSTRUCTION OF MANDAPA AT SHRI KRISHNA SANNIDHANA - Using Waste Iron Rods & Scrap Cabin Material

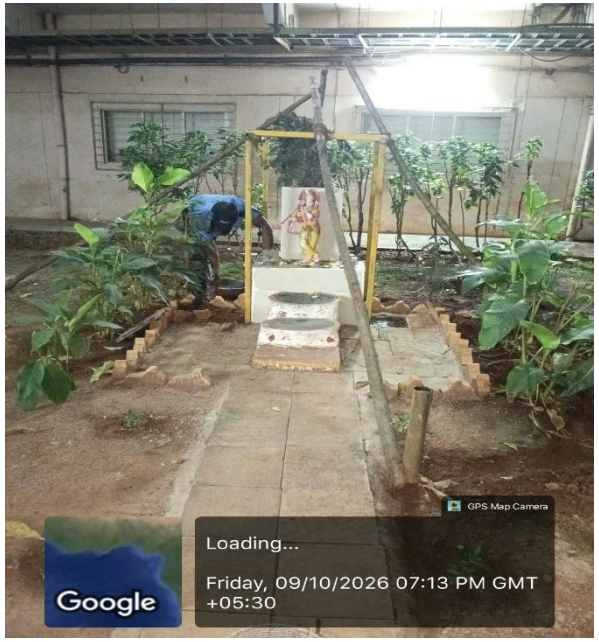

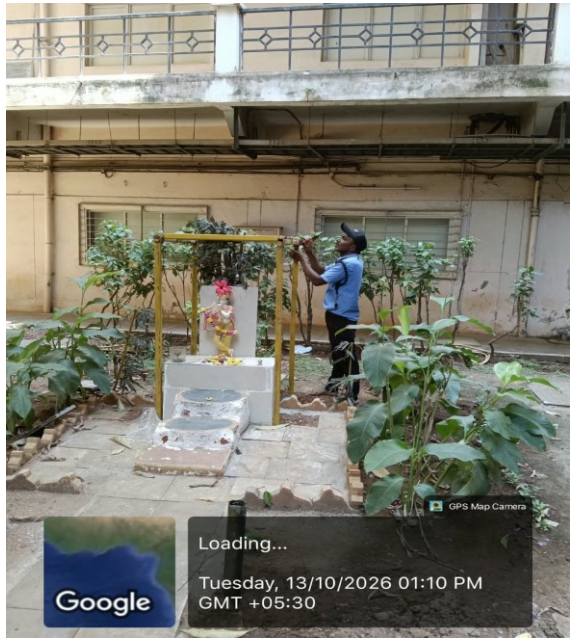

A Mantapa / Shelter is being fabricated for Shri Krishna Sannidhana by reusing waste iron rods and scrap materials from the old west-side cabin. A cost-effective and sustainable initiative by our team.

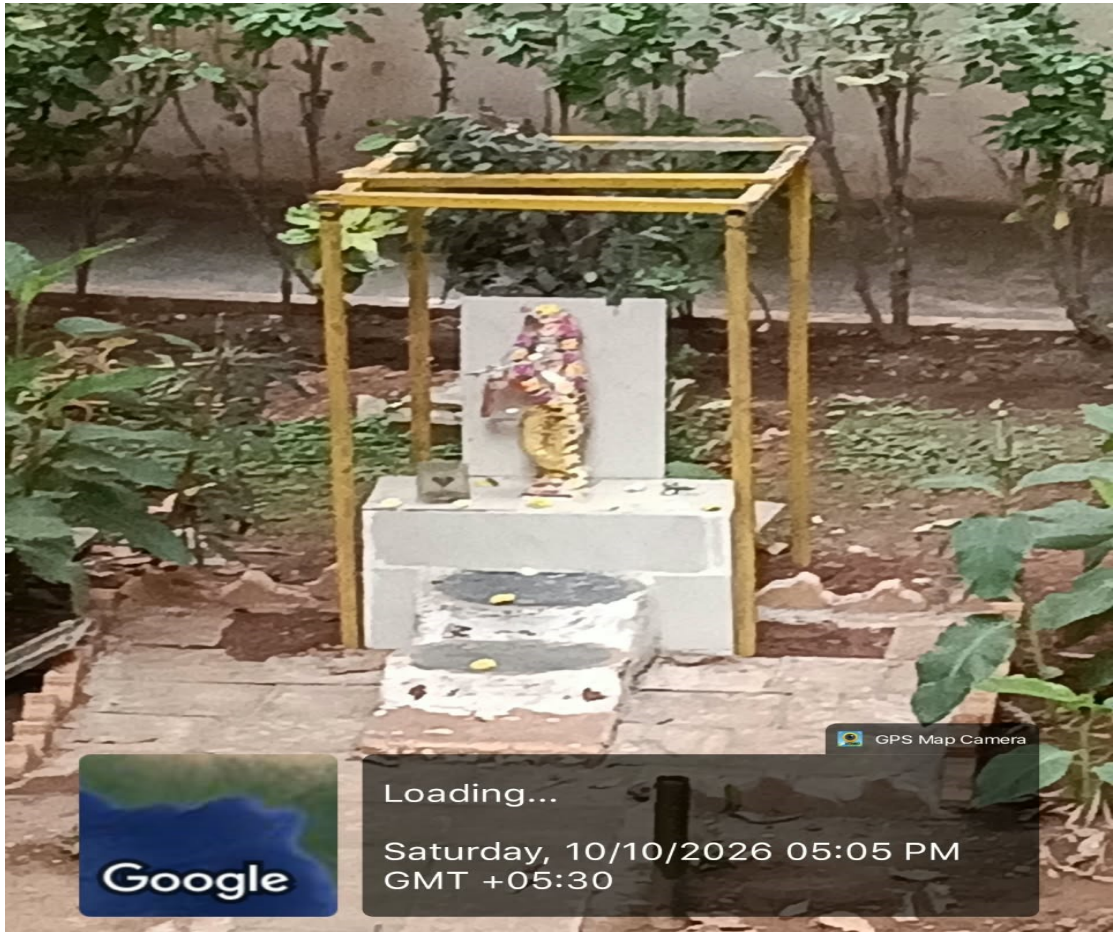

Innovative Low-Cost Canopy for Deity Protection

An innovative, low-cost canopy made from colourful waste plastic sheets was installed over the Shri Krishna Mantapa to protect the idol from sun and rain. This creative idea by our Security Staff Mr. Fakkirappa demonstrates our "Best Out of Waste" and "Zero to Creation" concept.

THANK YOU FOR WATCHING
