SECURITY

Installation of Repaired Idol to Maintain Cleanliness, After completion of tiles laying work, a broken idol was repaired with cement and installed at the location to prevent people from dumping garbage again and to maintain sanctity & cleanliness.

"Buddha Steps Towards Peace" - A Creative Artwork from Waste Tiles by Security Team

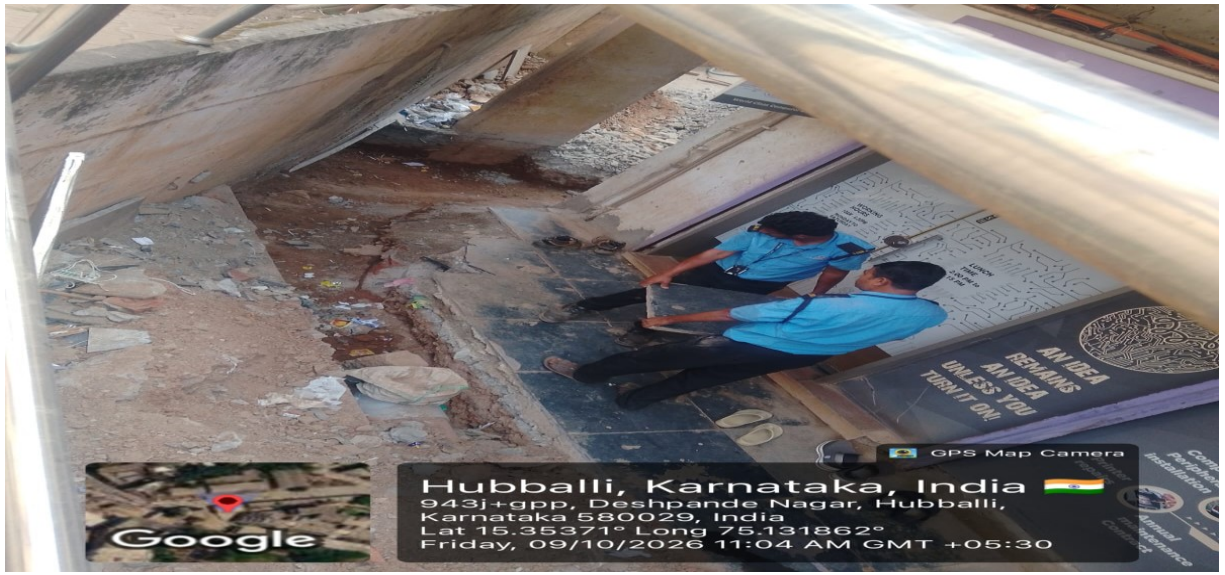

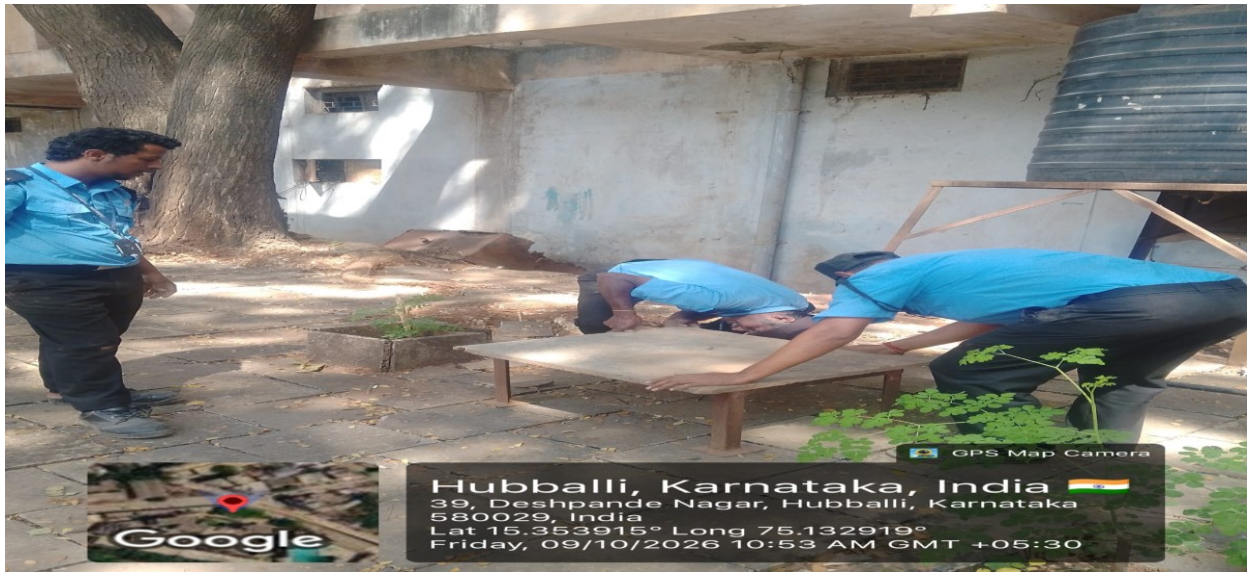

Final Outcome - A Clean & Beautiful Premises, Garbage Dumping Area Successfully Converted into a Clean, Beautiful and Usable Space

Now the area is clean and properly utilized for:- Sitting arrangement for people- Car parking facility

INNOVATIVE RESTORATION
Best Out of Waste

Waste broken tiles lying in the premises were collected and removed. The damaged Buddha statue was systematically repaired and re-installed. The waste tiles were creatively reused to construct beautiful steps for the fountain base. An old, unused large light globe/bulb from a discarded light pole was innovatively reused and placed behind the Buddha idol to create a divine Moon / Halo effect. A perfect example of Sustainable Creativity and Cost-Effective Restoration.
