TEAMWORK BRINGS FOUNTAIN BACK TO LIFE Enthusiastic Efforts + Creative Support = Beautiful Result

Inspiration in Action:
Seeing the enthusiasm of our Security & Housekeeping team in restoring the fountain, our Electrical Head, Mr. Basavaraj Ganamuki, came forward voluntarily.

He engaged a wall painter and got the back wall beautifully painted with Buddha & Nature art, featuring the message "Dharmo Rakshati Rakshitah - Kayakave Kailasa" (Work is Worship).

Systematically arranged all fountain stones and successfully re-started the fountain.

Result:
A perfect example of Teamwork and Ownership at Hubli IT Park.

Blessed with Buddha Statue by Manager Shri Vijay Dev Sir

Security Team Installing Buddha Statue & Decorating the Fountain with Devotion

Appreciation & Motivation:

Seeing our team's continuous dedication in developing the fountain, our Manager Shri Vijay Dev Sir appreciated the efforts and contributed a beautiful Buddha Statue for the IT Park Fountain.

Our Security staff installed the statue with great respect on top of the fountain rocks and decorated it beautifully with tricolour pots, plants and white pebbles, making it a Peace Corner.

This fountain now symbolizes Peace, Knowledge and Dharma –
"Dharmo Rakshati Rakshitah".

With Blessings from Management, Created with Devotion by Security Team

Attention to Detail: Our security team painted small decorative pots and stones in tricolored, added small green plants and arranged them aesthetically around the fountain. This final decoration made the fountain more lively, colourful and attractive for visitors.

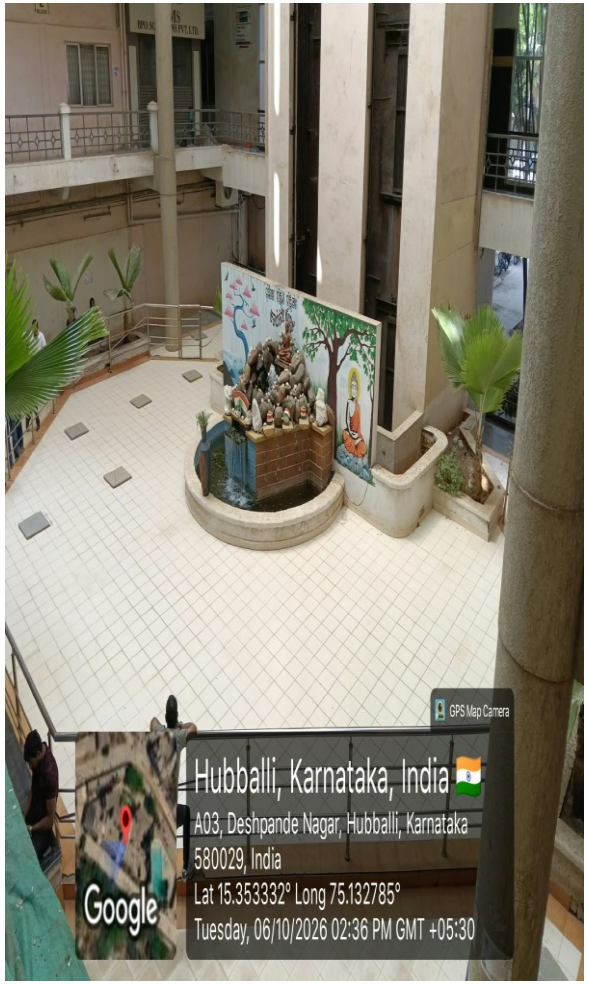

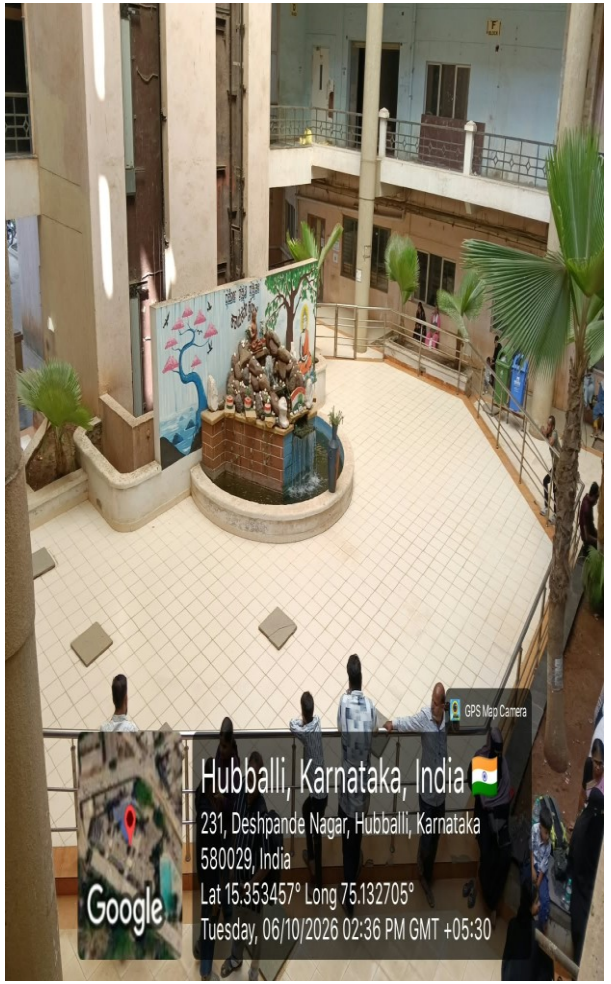

SURROUNDING AREA CLEANING & PLANT TRIMMING Ensuring Safety, Cleanliness & Clear CCTV View

Security Team Cleaning Unwanted Leaves & Trimming Plants Around Fountain Area

Safety & Greenery Maintenance:

Around the fountain, plants were overgrown and blocking the CCTV camera view and not growing properly. Our Security Team neatly trimmed the unwanted leaves, removed weeds, cleaned the entire surrounding area and made it neat and visible.

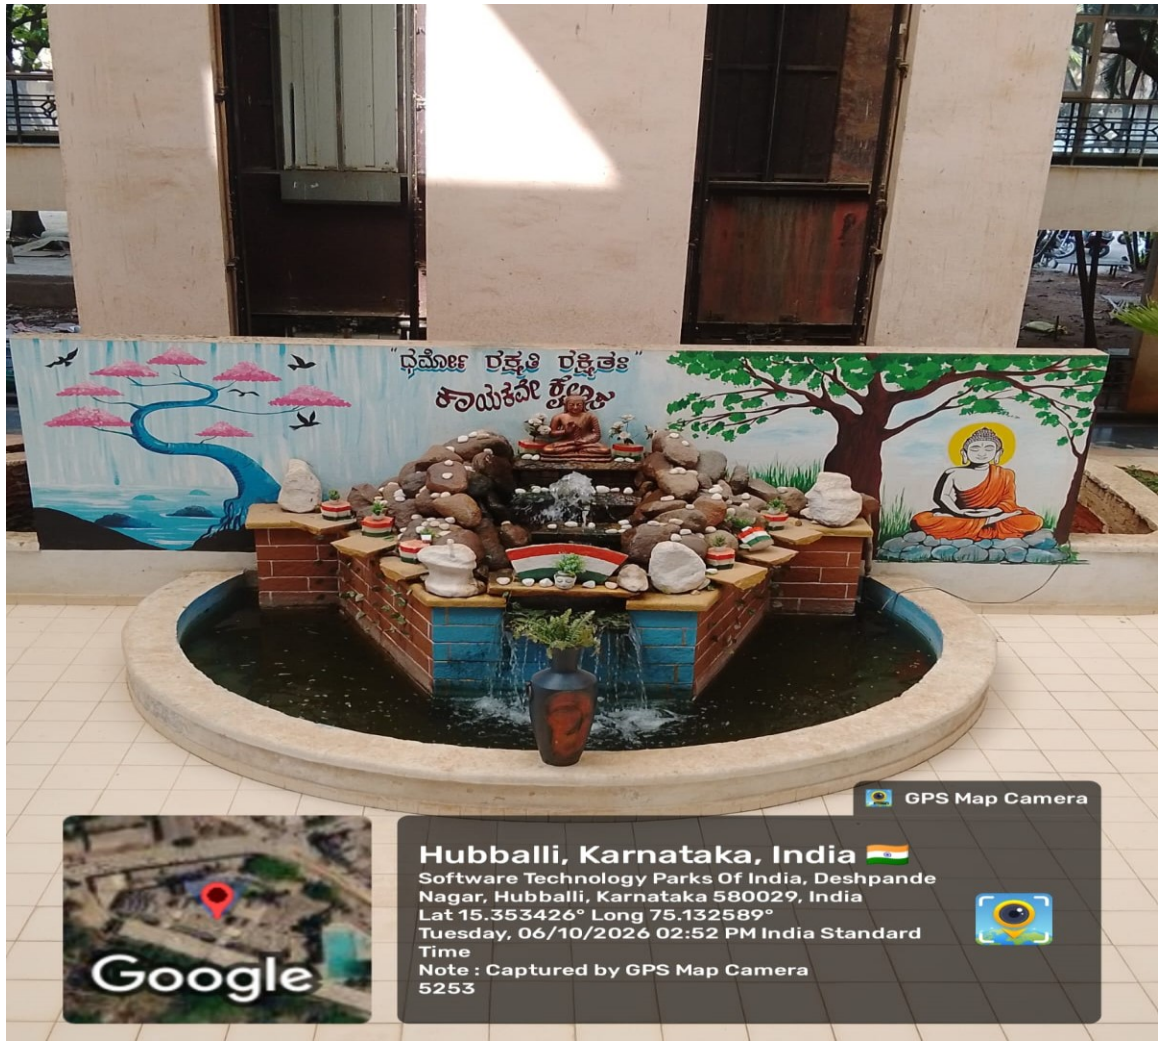

Benefit:

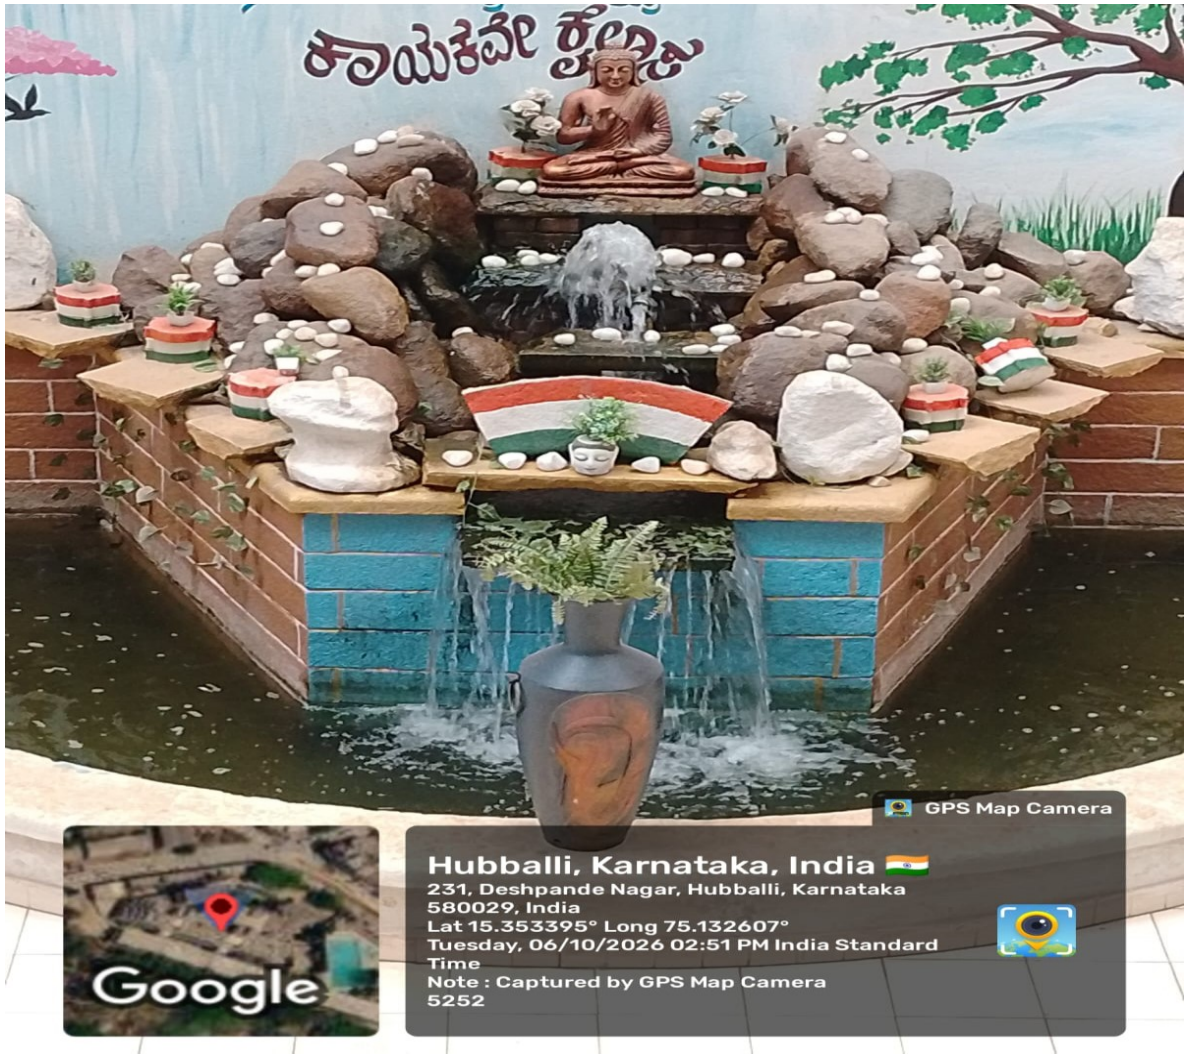

Now the area looks clean, plants will grow healthy, and CCTV coverage is 100% clear for security monitoring.
